

Dear Members of the Environmental Committee:

It looks like there are some great and necessary common sense proposals on the table regarding domestic animals and wildlife. Proper animal management to prevent unjustifiable cruelty and preserve recreational tranquility on Sundays should be adopted.

Therefore, I strongly support:

HB 6355 -to ban the sale of Ivory

HB 5615 -to give local communities power to ban leg hold traps HB 6334 -to require brick and mortar animal shelters be subject to inspection SB 942 -to ban trophy hunting

And oppose:

SB 522 to allow bear hunting

HB 5499 to expand Sunday hunting by allowing firearms

Thank you for your hard work and consideration.
